ABOUT

TEAM BONDING

WAS ESTABLISHED IN 2005

We've grown every year since

TEAM BONDING PROVIDES FUN TEAM-BUILDING ACTIVITIES ACROSS AUSTRALIA!!

At Team Bonding, our mission is to strengthen group connections, foster camaraderie, and elevate team synergy. We hold firm to the belief that tightly-knit teams are ultimately more effective.

Since launching in 2005, Team Bonding has been all about crafting custom team-building experiences to help the workplace connect better.

Successful teams share common goals, communication, and respect, but exceptional teams thrive on the intangible bonds that strengthen connections, bringing satisfaction and productivity.

Team Bonding knows that the best way to build a cohesive team is via enjoyable, collaborative group events!

Over the years, we've had the privilege of working with many companies. The most memorable groups are the groups that have great culture and strong interpersonal relationships. It's our passion to help every group feel more connected. People who work with colleagues who they like and respect tend to be happier and more productive. Those who enjoy the company of their colleagues tend to stay in jobs longer and are more committed to company outcomes.

Why Choose Team Bonding?

Our testimonials speak for themselves! Our results show that there's no better way to positively influence team spirit than to dedicate time for fun and bonding outside of the work environment! Time invested in team bonding pays long term dividends.

TEAM BONDING PRINCIPLES

Enjoyment comes first

We choose the same kind of activities that would be enjoyable for a group of friends, so your team ends up with the chemistry of a friendship group.

No "rah rah" hype

Our events let fun happen naturally. There's no humiliation, boundary pushing, or hidden agendas at Team Bonding.

It's all about team spirit

By taking part in a great shared experience your team creates memories, conversation, laughter and good times.

Offering amazing value

We offer competitive prices with no hidden expenses. We offer fully customised courses & events to suit your team. Every event is different & we work with you to design the most memorable event for your team.

Understanding your needs

Team Bonding is experienced in creating events that facilitate all types of team requirements. Our events are customisable and inclusive - we will be able to create an event to suit you and your team's needs.

Making your job easy

We are the safe hands in which you can entrust your event. We will help organise every aspect of your event, including venues, food, and drink.

MEET OUR DIRECTOR

Karen Gurney
DIRECTOR

I've been fortunate to learn from remarkable women whose instilled in me the values of hard work, creativity, and resilience, inspiring me to pursue my dreams with unwavering dedication.

With a diverse background in hospitality, events, and weddings, coupled with the rewarding experience of raising my own kids, my naturally organized nature makes me the go-to person among my friends and family for event planning. Embracing this role wholeheartedly, I find immense joy in crafting unique and unforgettable experiences that leave a lasting impression.

Driven by my passion for travel and thirst for new challenges, I'm constantly seeking inspiration from diverse cultures and experiences. It's this adventurous spirit that fuels my creativity and drives me to push boundaries in event planning.

My ultimate goal for team bonding? To ensure that your event stands out as a truly memorable occasion, sparking conversations and fond memories that endure for years to come. Let's collaborate to make your event an unforgettable experience that exceeds all expectations.

How POSCP can help you?

[Expandable Easy Installation](#) [Boost Your Profit](#) [Improve Sales](#)

Be There for Right POS System...

POS systems are used throughout the restaurant and retail industry. The computerized system helps business owners and administrators save time to track sales, food margins, cash flow and can help you identify areas for improving an existing shop and maximize your return on investment. The high volume of cash and credit cards that pass through a restaurant each day make a POS system necessary. POS systems enable business owners to collect and process payments, a seamless communication between the kitchen and the waiter staff. Orders go through the system directly to the kitchen printer. POSCP lets you capture, track and instantly manage your business. It makes it easy to visit a remote and successful business. A modern POS system facilitates you to serve your customers in better way and lets them enjoy their experience while also reducing employee turn.

Features you will LOVE to use...

POSCP is not just a point of sale software but also manages back end processes like inventory, supplier management, purchase order management, inventory control, and customer relationship management. Further, with POSCP sophisticated data base system you can make different reports to get your require and view them in Real-time basis.

What are our customer's reviews

"POS System is extremely user friendly and it makes our staff trouble to learn how to use it. Very good! I have being able to make our staffs in a short time. It is especially when we are distributing what to kids, dinner or update our menu. We are extremely happy with POSCP POS system."

MARK

"POSCP POS system is proving to be fine. Reliable and very easy to use. Loading inventory is fast and simple couldn't be better. My sales have gone up a lot since we started using it. The customer service is some of the best which I have experienced."

DAVID

"POSCP makes it very easy to set up and use. The same data base which you use in your software. There is more need to be here in inventory levels and product prices and you don't need to do double entries for your entire store."

Eight Easy Ways to Improve the Battery Life of Your Power-Hungry Smartphones

It's so easy to become obsessed about the battery life of our smartphones. Perhaps, one day battery life will no longer be an issue, but today, battery capacity doesn't seem to increase much. If you struggle to keep your smartphone operational for the whole day with a single charge, plug it in. This is very obvious, you need to plug your smartphone in, whenever you have a chance. You don't need to wait until your smartphone nearly dies. You can do this in the workplace and you can charge your phone while you are working. You don't even need to bring a charger, you can simply connect your smartphone to your computer with the USB data cable. [Read More](#)

Five Ridiculous Mistakes That Employees Make With Their Computing Devices

Many IT people share their thoughts on silly mistakes that they wish employees in their workplaces wouldn't make. Forgetting to lock the computer, being people forget to lock their computers when they walk away from their cubicles or office rooms. Your computer monitor isn't meant for people to see. Although there may not be a rogue employee nearby who seeks to rifle through unlocked computers for confidential information, it is still possible someone will send joke emails in your name or do other things that cause you unnecessary troubles. Fillings

Do you experience pain when brushing certain teeth, or sensitivity when consuming hot or cold foods? If you answered yes, you may have tooth decay that requires a filling. Fillings help to store your teeth and relieve the pain associated with cavities and wear, bringing a tooth back to its usual function and shape.

HoldCall.com - A Division of IT Company

Find the most suitable script according to your industry produced by HoldCalls.

On hold message is essential to your businesses for engaging customer and better customer service. Industries must go for on hold messages to enhance the ambiance of their businesses. It can help them emphasize their vision and entertain their customer.

Customized messages allow you to target callers with promotions and special offers to influence shopper's buying decisions and increase sales.

The most vital element of your on-hold message is the voice talent. No matter how good the script and background music are, the voice must represent the look and sound of your brand. Our voice actors work hard to bring your message to life with clarity.

THE POWER OF THANK YOU (PART ONE)

We've all seen the numbers. Roy Morgan figures show charity donations have fallen around nine per cent since 2011 as donor fatigue takes its toll on Australia's not-for-profit sector. And despite one in four Australians reporting they receive unwanted calls from charities on a weekly basis, many charity organisations are

WHAT OUR AGENTS SAY

A few years ago now my grandfather pointed out that I sounded very tired and that I seemed unhappy. He advised me to look for a new job and to always work on being happy. Sadly, that advice was to be the last conversation I had with him. Not long after that advice, while I was on my daily 2 hour commute I discovered an advertisement for telecommuting with OURTEL. My thought was, why not give it a go? Now I couldn't be happier! With no commuting, I am saving money, have plenty of 'me' time and I am able to enjoy my beautiful children more. OURTEL encourage a great team environment, my office may be virtual yet I am always supported by management and fellow agents so I am never alone. Knowing that I am making a difference in helping many outstanding Australian charities, keeps me inspired, passionate and overwhelmingly rewarded in so many ways. I am content with my life now, happiness is a part of each day which can only mean great things for myself and my family moving forward. A big thank you to my lovely grandfather who directed me to make a positive change in my life and of course to OURTEL!

What We Do

Our Approach

OURTEL Fundraising Solutions' "POWER OF PHONE" revolves around the quality of our agents and our Multi-Stage telefundraising approach.

OURTEL employs its unique Multi-Stage approach to intelligently build the donor base and effectively move donors through the lifecycle.

Our telecommuting model combines with the Multi-Stage approach to leverage the POWER OF PHONE (POP). This provides our clients with an improved return on their investment through higher yields at lower costs, whilst protecting the client's brand and enhancing the donor relationship.

OURTEL performs its work on a fee for service basis and measures performance against mutually agreed targets. OURTEL does not offer work for commission or incentive based employment.

But instead we have successfully created a working culture that rewards, achieving consistency in performance, protecting the client's brand and creating a positive donor experience.

As a customer, there are a lot of vehicle warranty companies that simply don't offer value for money and reasonable coverage. It is important that you feel confident with the company you decide to trust with your car. Vehicle Protection is committed to honesty through processing our customers with excellent service and peace of mind.

Money Back Guarantee

PropertyForSaleByOwner.com.au offers a Money Back Guarantee.

Our Money Back Guarantee comes into force only if your property isn't SOLD or LEASED, or if your business isn't SOLD, through our Service Options. Then we will refer you to one or two local reputable real estate or business agents and, upon successful sale of your property or business by this agent, refund your initial upfront fee.

(see, "Terms & Conditions")

PropertyForSaleByOwner.com.au will examine your property or business and then recommend up to two local real estate or business agents. If you are satisfied with one of these local agents to engage in the Sale or Lease of your property, or Sale of your business, we then contact the chosen agent to negotiate the best commission rate and advertising costs for you.

The PropertyForSaleByOwner.com.au Money Back Guarantee is only available to clients who engage one of our recommend local real estate or business agents to sell or lease their property, or to sell their business, and after the services of a real estate or business agent has been engaged, these clients may no longer utilise the services of PropertyForSaleByOwner.com.au.

The initial upfront fee, only, is included in the Money Back Guarantee and not recurring and monthly fees that have been paid.

Please feel free to call PropertyForSaleByOwner.com.au on 1300 660 868 or contact PropertyForSaleByOwner.com.au if you would like to discuss our Money Back Guarantee.

National Business & Real Estate (Pvt) Ltd.

P-324 Main Boulevard Khayaban-e-Jinnah, Lahore, Punjab, Pakistan

We have come up with the most appealing property investment opportunities available.

Do you want to invest for your future?

There are a number of property investment opportunities for **National Business and Real Estate** Broker/Owners all over in Pakistan. Each of those opportunities is outstanding, unique and worthy but required investment.

Essential Considerations for Investment

As you know some regions are separately owned and controlled.

- So the price ranges also differ from location to location. But as far as National Business & Real Estate is concerned you will always find us easily affordable.
- The most significant consideration, mostly dealers charge higher than **National Business and Real Estate**. With us, you pay only commission of the sales or a monthly fee to manage your rental property.
- Brokers get great opportunities in brand, generating sales, advanced technology and a number of training sessions. It is also a fact that they are not willing to pay a large percentage of their earnings.

So National Business and Real Estate makes everything simple and pleasing for you.

We can help you to buy Business, Property or Franchise!

Thinking to buy business or property? Just contact us and our experienced agent will call you shortly.
